

LuscherAction::computeStaple

WilsonGaugeAction::
computeStaple

SU3::inv

```
graph LR; A[LuscherAction::computeStaple] --> C[SU3::inv]; B[WilsonGaugeAction::computeStaple] --> C;
```

The diagram illustrates a common dependency or call site. Two distinct function calls, 'LuscherAction::computeStaple' and 'WilsonGaugeAction::computeStaple', are shown on the left. Arrows from both of these functions point towards a single, shaded rectangular box on the right labeled 'SU3::inv', indicating that both functions utilize or call this specific component.
