

sumSpatial

```
graph LR; A[sumSpatial] --> B[Parallel::Index::getIndex]
```

A diagram showing a call from the `sumSpatial` function to the `Parallel::Index::getIndex` method. The `sumSpatial` box is shaded gray, and the `Parallel::Index::getIndex` box is white. A blue arrow points from the right side of the `sumSpatial` box to the left side of the `Parallel::Index::getIndex` box.

Parallel::Index::getIndex
