

TestSuite::TestSuite

```
graph LR; A[TestSuite::TestSuite] --> B[Parallel::Communicator::initializeSubLattice]
```

A diagram showing a call from the TestSuite::TestSuite function to the Parallel::Communicator::initializeSubLattice function. The TestSuite::TestSuite function is represented by a white box with a black border, and the Parallel::Communicator::initializeSubLattice function is represented by a gray box with a black border. A blue arrow points from the TestSuite::TestSuite box to the Parallel::Communicator::initializeSubLattice box.

Parallel::Communicator
