

IO::FieldIO::loadFieldConfiguration

IO::FieldIO::loadChromaField
Configuration

Parameters::getInputFolder

```
graph LR; A[IO::FieldIO::loadFieldConfiguration] --> C[Parameters::getInputFolder]; B[IO::FieldIO::loadChromaField Configuration] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, there are two rectangular boxes. The top box contains the text 'IO::FieldIO::loadFieldConfiguration'. The bottom box contains the text 'IO::FieldIO::loadChromaField Configuration', with 'Configuration' on a new line. On the right, there is a single rectangular box with a light gray fill and a black border, containing the text 'Parameters::getInputFolder'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box. The arrow from the top box points to the upper part of the right box, and the arrow from the bottom box points to the lower part of the right box.
